

CLAIM AMENDMENTS

The pending claims are as follows:

1.-18. (Canceled)

19. (previously presented) A method for authentication of a user of a hand-held data processing device, comprising:

 creating a list of cyclic redundancy check values on a computer, each said cyclic redundancy check value in said list corresponding to a character string representing an authorized user;

 transferring said list of cyclic redundancy check values to said hand-held data processing device;

 inputting a user identification character string into said hand-held data processing device;

 calculating a cyclic redundancy check value for said user identification character string with said hand-held processing device;

 comparing said cyclic redundancy check value for said user identification character string to said list of cyclic redundancy check values with said hand-held data processing device; and

 determining if said cyclic redundancy check value for said user identification character string represents an authorized character string with said hand-held data processing device.

20. (currently amended) The method of claim 19, further comprising sorting and storing said list of ~~list of~~ cyclic redundancy check values.

21.-27. (Canceled)
